This school, which is in Yunlin County, sometimes gets visits from monkeys.

Usually, it's only a few monkeys. A few monkeys don't really cause a problem.

But when a lot of monkeys show up, that is a huge problem!

Especially if the monkeys are mean to people!

The monkeys were bothering students and trying to steal their breakfast.

這些猴子騷擾學生，還想偷他們的早餐。

They were also breaking things.

They broke things like some of the school's windows and security cameras.

Nobody knew what to do! Those monkeys were not afraid of people!

Finally, people had to light firecrackers.

The firecrackers made a lot of noise, and scared the monkeys away.
