## 四、閱讀測驗 (每題 3 分，共 18 分)

A.

What is the gender pay gap? It

means that men and women do not get the same pay for doing the same job. This

is a problem in many countries. Taiwan is one of them.

Women often earn less money than men because of gender stereotypes. In 2021, women got NT\$ 296 per hour. However, men got NT\$ 48 more than women for the same work. If women want to earn the same pay as men per month, they need to work more than 51 days. It's not fair, right? Women might also have fewer chances for higher-paying jobs. We should all work together to close the gender pay gap and make sure that men and women can get the same pay. This is very important. Gender isn't an excuse for treating people differently. We should fight for fair pay and equal chances for everyone.

gender 性別    pay gap 薪資差距    pay 薪資

(D) If women work hard, they can earn higher pay than men.

B.

Garlic is a helpful food for our health. However, it

doesn't smell good. Many people don't like the strong smell of it. Vampires have a better sense of smell, so garlic should give them a headache.

Garlic has alliin in it. It can actually kill

mosquitos, the real-life vampires. If they can die from it, vampires could, too.

Garlic is a very strong antibiotic from nature, and it can fight off and kill most infections. So, if becoming a vampire starts from getting an infection, then garlic would be a good way to finish off vampires.

Although vampires are not real, garlic is great for sure.

Garlic is useful for keeping bugs away and even treating infections. It truly is a wonderful gift from nature.

Joey: Lynn, have you tried Caldron? I've heard that restaurant is good.

Lynn: I have. I went there once for Tom's party.

Joey: And?

Lynn: Well, I never thought I would have to cook for myself when eating out.

Joey: But it's fun to cook your own food.

Lynn: I don't see any fun in that. Besides, I want nice food.

Joey: So you didn't like the food there?

Lynn: Everything tasted the same. I mean, they were all cooked in the same boiling pot. How could they taste different? I just kept throwing strange things into the pot. I didn't even know what half the things were made of.

Joey: Don't worry. Everything should be safe to eat after a hot bath in the pot. And you didn't get sick after that, right? Besides, you tried something different there. Still a good experience, I think?

Lynn: I don't think we share the same idea of good experiences.
